OUR PROGRAMS

Our programs are designed in collaboration with leadership & management faculty from prominent business schools and industry practitioners. The programs seek to transform the way people work together. We mount our programs to create vibrant working environments in which people feel valued and get heard, communication is honest and clear, decision-making timely and robust, and authentic leadership filters through the organizations we work with.

We Develop PEOPLE – Our skillset pillars.

Our four core training pillars are comprised of key components of the executive skillset needed to thrive in today's ever-changing business environment.

Self Awareness & Personal Development

We use a communication and behavior assessment tool called Clarity4D. This is an easy to understand tool that depicts different personalities in color; red, yellow, green and blue. It helps people understand themselves and others better.

Leadership and Management

Getting the leaders of your organisation especially at the top, behaving authentically, inspirationally, respectfully, and communicating with clarity, honesty and conviction is a critical driver of success. It sets the tone and creates the culture for others to emulate.

Team Dynamics and Development

In order for an organization to achieve excellence and meet its objectives, it must have cohesive working teams and we are equipped to help you achieve that.

Communication and Interpersonal Skills

With improved communication comes better relationships both at home and in the workplace. Using the Clarity4D tool, we guide you through your preferred communication style and help you understand other people's communication style as well.

BEGIN YOUR PERSONAL LEARNING AND DEVELOPMENT JOURNEY WITH TRAINING CONNECTIONS

All our learning programmes begin with an introduction to the Clarity4D model and our signature 'Personal Impact' workshop. This gives delegates valuable insights into themselves and the impact they can have on others, and lays the groundwork for improved working relationships and team performance.
